

TCLC Summer Camp 2015

Join us for hands-on technology workshops presented by the Educational Development Committee

At the Gwynedd Mercy University, University Hall

Registration and morning refreshments will be served in the Keiss Library from 9:00 AM – 10:00 AM
All session will be in University Hall. Morning Sessions start at 10:00 AM and Afternoon Session start at 1:00 PM

Visit <http://www.gmercyu.edu/about-gwynedd-mercy/maps-directions> for directions and a campus map

Don't be left stranded all alone - Register now to secure your spot, as space is limited

Monday
July 20th

A. Being Social at the Fair

Take your basic first year library tour and upgrade your students experience in their library orientation with Twitter and Instagram. This program will offer ways to make the experience more social.

B. Curating Your Prizes

Learn how your library can curate an existing YouTube channel filled with tutorials and other educational content. Tutorial creation will be discussed.

Tuesday
July 21st

C. Getting in the LibGuide Line

This session offers a basic introduction to LibGuides v2 with reference to how it differs from LibGuides v1 and a discussion of the migration process.

D. Spinning into Version 2

Now that you transitioned to LibGuides v2, get an introduction to the new features of LibGuides v2.

Wednesday
July 22nd

E. Guess Your IL Skills

Learn how to create an online information literacy quiz. This session will cover HTML, CSS, and JavaScript. You don't need to know programming or coding for this session.

F. Finding the Images at the Fair

Create professional looking graphics with the free, web-based service call Canva. In addition, learn how to find and use CC-licensed images from the web.

Thursday
July 23rd

G. Java Coated Treats

Learn how to use JavaScript to customize an ILLiad new user registration page. This session will show how JavaScript can become an important tool for librarians and staff.

H. 3D Creations

This session offers an introduction to 3D printing software. Some participants will have an opportunity to print out a 3D object.
